Dear Paul,

After nearly two and one-half years of hard work and tons of paper work I am delighted with the results you have achieved for us. At our very first meeting the morning after the fire you promised us that you would make up your fees by negotiating for us a higher settlement than we could have gotten by ourselves. You delivered many times over both financially and in terms of time spent on this enormously complicated and challenging situation. No one could ever imagine how we felt the day after the fire. We were in a state of shock. Your cool composure and your 'take control' attitude greatly helped and reassured us. Without your organizational and management skills we would never be where we are today.

I also want to take this opportunity to thank the entire management team at Swerling Milton Winnick, especially Dayle and Diane for their continual help in dealing with the immense details of this matter. I can not possibly imagine how we would have ever settled this matter without them.

Lastly, it is with great pleasure that I enclose our check for full and final settlement of our account. This is probably the happiest check I have ever written!!

Wishing you and your colleagues all the best and continued success.

Kindest personal regards,
